End Application:

Nha: ac chilled water pump; wsd: cvn nuclear reactor boundary area

Special Features:

Undersize wear ring-backcover; inside diameter of wear ring is .050 undersize when furnished as a repair part and is designated as part no us7-07-024-305

Material:

Copper alloy and nickel alloy

Material Specification:

Mil-c-24723, comp, m-255 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19900

Mil-std (military Standard):

Mil-c-24723 spec.
