End Application:

Light amphibious resupply craft (larc v) slep

Shaft Rotation Direction:

Counterclockwise

Connection Design:

Threaded

Displacement Type:

Variable

Product Name:

Hmv-02 series variable motor

Special Features:

Control type: hydraulic infinitely variable control. Control range: 4-16 bar. Porting: metric straight thread o-ring port (iso 6149). Mounting: sae d, 2-bolt. Shaft: ansi. Purge/flushing: closed loop (direct relief). Port orientation: radial ports.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
