End Application:

Pump, rotary vane 104e240f11ba

Discharge Pressure:

250.0 pounds per square inch gage

Pump Rotation Direction:

Clockwise

Rotary Pump Design:

Vane

Operation Method:

Powered

Product Name:

Pump, pilot motor

Special Features:

Pump, rotary. Ssr name is pump, rotary vane. Per manufacturer; body material is brass; capacity is 115 to 330 gph; speed is 1725 rpm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
