Media For Which Designed:

Hydraulic fluid

Pumping Element Operating Position:

Vertical

Volume Control Type:

Push-pull

Product Name:

Cartridge manual hand pump pull to pressurize or push to pressurize

Special Features:

Unit is a screw in cartridge type, plunger type push to pressurize or pull to pressurize, hydraulic manual hand pump; operating pressure: 5000 psi (350 bar); proof pressure: 10000 psi (700 bar); flow: .250 cu/in (4.0 cc)per full stroke; operating temp: -40 degrees to +120 c; seal kit: skn-1021 buna "n"

Supplementary Features:

Size 10 indicates 7/8 in-14unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
