Cylinder Quantity:

1

Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Media For Which Designed:

Liquid and air

Pumping Element Type:

Piston

Maximum Discharge Flow Rate:

6.0 liters per minute

Discharge Pressure:

900.0 pounds per square inch gage

Pump Reciprocating Design:

Single acting

Reciprocating Stroke Type:

Variable

Volume Control Type:

Pressure compensation

Operation Method:

Powered

Product Name:

Pneumatic driven pump

Special Features:

0.875 inch stroke .33 hp mini pump series; 7 ratio; 7.8 actual ratio

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
