End Application:

Reverse osmosis desalination system

Disposition After Initial Use:

Limited

Product Name:

Maintenance

Special Features:

Kit consists of 1 seal booster pump head pn 1221515773 and 1 gasket booster pump n200 pn 2614126pp

Functional Description:

Removes many types of molecules and ions from solutions to produce potable water; most commonly used in drinking water purification from seawater removing salt and other materials from water molecules

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
