End Application:

Boat

Maximum Discharge Flow Rate:

5.0 gallons per minute

Features Provided:

Self-priming

Product Name:

Waste pump

Special Features:

12v, maximum current: 8a; the dc motor is suitable for intermittent duty and should not be run for more than 30 minutes continuously.

Type/model Designation:

50890

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
