**End Application:**

Boat

**Maximum Discharge Flow Rate:**

5.0 gallons per minute

**Features Provided:**

Self-priming

**Product Name:**

Waste pump

**Special Features:**

12v, maximum current: 8a; the dc motor is suitable for intermittent duty and should not be run for more than 30 minutes continuously.

**Type/model Designation:**

50890

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A19400
