Total Head:

90.0 feet

Suction Lift:

25.0 feet

Operating Speed At Rated Capacity:

3600.0 revolutions per minute

Product Name:

Pump, engine drive centrifugal

Special Features:

Engine type - trash. Engine size - 242cc. Tank capacity is 6.4 quarts. Engine/motor type is gas. Length: 26.5 inches; width: 19 inches; height: 24 inches. Material of construction - aluminum. Impeller - cast iron. Impeller type - semi-open. pressure - 39 psi. Liquid temp. Range is 35 - 100 degrees f. For use with non-flammable liquids.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
