## NSN 4320-01-629-9635

Axial Pistons Pump - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4320-01-629-9635 **Mounting Type:** Frame **Cylinder Quantity: Pumping Element Type:** Piston **Discharge Pressure:** 3770.0 pounds per square inch gage **Pump Rotation Direction:** Clockwise **Reciprocating Stroke Type:** Variable **Volume Control Type:** Pressure compensation **Drive Shaft Type:** Splined, straight external **Product Name:** Axial piston open circuit pump, load sensing, pressure compensated **Special Features:** Pressure compensation setting 260 bar; load sensing setting 20 bar Shelf Life: N/a **Unit Of Measure:** 

**Demilitarization:** 

No
