Body Length:

0.299 inches

Body Width:

0.299 inches

Product Name:

High power density high efficiency sheilded conductor

Special Features:

Tape & reel packaging; wirewound type; material-core ferrite; inductance 2.20; tolerance pom 20%; current rating 4.76a; current saturation 7.06a; magnetic sheilding; dcresistance 12.6mohm; operating temp -40 deg.Celsius to 125 deg.Celsius; frequency test 100hz; surface mounted; height seated 0.171"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
