**Body Length:**

0.299 inches

**Body Width:**

0.299 inches

**Product Name:**

High power density high efficiency sheilded conductor

**Special Features:**

Tape & reel packaging; wirewound type; material-core ferrite; inductance 2.20; tolerance pom 20%; current rating 4.76a; current saturation 7.06a; magnetic sheilding; dcresistance 12.6mohm; operating temp -40 deg.Celsius to 125 deg.Celsius; frequency test 100hz; surface mounted; height seated 0.171"

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
