Prime Mover Quantity:

1

Media For Which Designed:

Liquid

Pumping Element Operating Position:

Vertical

Volume Control Type:

Hydraulic cylinder

Unpackaged Unit Width:

250.0 millimeters

Pump Basic Material:

Steel

Prime Mover Type:

Electric motor

Features Provided:

Self-priming

Prime Mover Power Rating:

4.0 kilowatts

Product Name:

Vertical multistage centrifugal pump

Voltage In Volts:

277.0 and 480.0

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
