Flow Direction:

Inside out

Design Type:

Nonreusable

Filtering Media Design:

Mesh single filtering media response

Material:

Rubber synthetic container/cartridge

Material Specification:

525/5 fscm k0298 mfr ref single material response filtering medium

Media For Which Designed:

Air

Fsc Application Data:

Filter assembly, heating and ventilation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
