End Application:

High pressure console

Product Name:

Magnet assembly

Special Features:

Furnished w/either a or am element

Material:

Steel

Special Test Features:

Cast ductile iron base; o-ring provides a leakproof enclosure

Supplementary Features:

Built in valve; mtg holes provided in filter base

General Description:

Heavy seamless tubing

Purchase Description Identification:

08832a-tf-302-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
