Body Diameter:

2.486 inches

Body Inside Diameter:

0.750 inches

Filtration Rating In Microns:

1.0

Flow Direction:

Outside in

Design Type:

Limited

Temperature Rating:

200.0 degrees fahrenheit

Bodylength:

4.750 inches

Filtering Media Design:

Multiple stacked disks all filtering media responses

Material:

Wool filtering medium

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Multiple stacked disks, w/out cleaning blades

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
