Wire Diameter:

0.009 inches

Design Type:

Nonreusable

Filtering Media Design:

Mesh single filtering media response

Filtering System For Which Designed:

Full flow

Material:

Steel comp 304 screening

Material Specification:

Qq-s-763, cond a federal specification single material response screening

Media For Which Designed:

Fuel/oil, hydrocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
