End Application:

Processor, x-r, eastman kodak, model m35a, x-omat

Design Type:

Reusable

Filtering Element Quantity:

1

Filtering Media Design:

Molded single filtering media response

Filtering System For Which Designed:

Full flow

Style Designator:

EII type (hydraulic)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
