Body Diameter:

0.380 inches

Body Inside Diameter:

0.331 inches

Mounting Flange Thickness:

0.010 inches

Flow Direction:

Inside out

End Application:

Arleigh burk class ddg

Design Type:

Reusable

Mounting Flange Diameter:

0.610 inches

Bodylength:

1.370 inches

Filtering Media Design:

Sintered single filtering media response or woven single filtering media response

Product Name:

Filter assembly, fitting flange mounted

Filtering System For Which Designed:

Full flow

Special Features:

37.0 degrees fitting flange mounted; used on rix industries star model 200 compressor

Material:

Steel comp 304l filtering medium

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Cylindrical w/ container (rigid) and mounting flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
