Body Outside Diameter:

1.600 inches

Body Inside Diameter:

1.500 inches

Filtration Rating In Microns:

20.0

Flow Direction:

Outside in

End Application:

P/n: pup-020-ag; standard coalescor 6000 psi aluminum

Design Type:

Limited

Tempurature Rating:

115.0 degrees fahrenheit

Product Name:

Coalescor, element

Media For Which Designed:

Air

Supplementary Features:

Material-sintered bronze; closed on one end and 0.5 inch on other end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
