Body Outside Diameter:

3.630 inches

Body Height:

12.750 inches

End Application:

Av/8b support equipment; aircraft carrier

Design Type:

Reusable

Filtering Element Quantity:

0

Maximum Operating Pressure:

150.0 pounds per square inch

Special Features:

Applications: petrochemicals, coolants, hydraulic oils, process water, solvents, potable liquids, compressed air; features and benefits: single center bolt for quick cartridge change, in-line pipe connections for easy installation, bracket kit for installation on drilled head bosses for easy mounting, spring-loaded bottom seats for positive cartridge sealing, o-ring closure seal provides positive sealing, drain and vents standard on all models

Material:

Steel comp 316 frame

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
