**End Application:**

Hydraulic power unit; cage: 65089; p/n: 980524

**Tempurature Rating:**

250.0 degrees fahrenheit

**Maximum Operating Pressure:**

300.0 pounds per square inch

**Special Features:**

Material; porting head is made of cast aluminum (anodized) element case is made of steel; weight, 5 lbs.; element selections are predicated on the use of 150 sus petroleum based fluid and a 30 psi bypass valve.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
