End Application:

Hydraulic power unit; cage: 65089; p/n: 980524

Temperature Rating:

250.0 degrees fahrenheit

Maximum Operating Pressure:

300.0 pounds per square inch

Special Features:

Material; porting head is made of cast aluminum (anodized) element case is made of steel; weight, 5 lbs.; element selections are predicated on the use of 150 sus petroleum based fluid and a 30 psi bypass valve.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
