Current Type:

Ac

Filtering Material:

Steel, stainless

Filtering Material Design:

Wire woven

Filtration Rating In Microns:

Frequency In Hertz:

60.0

Drain Plug:

Not included

Installation Design:

Mobile

Voltage Rating:

110.0 volts

Bypass Valve Operation Method:

Automatic

Horsepower Rating:

0.750

Unit Type:

Multiple

Power Source:

Electric motor

Rated Speed In Rpm:

3450.0

Wattage Rating:

1100.0 watts

Rotating Device Type:

Element

Maximum Operating Pressure:

25.0 pounds per square inch

Magnet:

Included

Drain Cock:

Not included

Mobility Support Type:

Dolly truck

Switch-over Valve:

Included

Filtering Element Quantity:

1

Element Reusability Feature:

Reusable

Cleaning Blade:

Not included

Rotation Method:

Electric motor

Flow Type:

Bypass

Bypass Valve:

Included

Air-bleed Valve:

Not included

Product Name:

Portable filter cart

Phase:

Single

Special Features:

11 foot hose; wand assembly

Quantity:

2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T384-a
