Body Diameter:

0.512 inches

Body Thickness:

0.005 inches

End Application:

MERC-UR-YVA-PORA

Design Type:

Nonreusable

Product Name:

Filtering disk mercury vapor analyzer 20s

Special Features:

.25mm diameter; the frit-ware is used the same as the filter disks were used; for use on the 431-x mercury vapor analyzer

Material:

Plastic cellulose acetate filtering medium

Style Designator:

Round (basically flat)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
