Body Diameter:

3.750 inches

Body Inside Diameter:

1.187 inches

Criticality Code Justification:

Spcl and feat

Product Name:

Coalescer cartridge

Special Features:

Used in af mobile and fixed fuel system. The purpose of this new part is to supply quality fuel to the aircraft for safety of flight. This has been qualified to api/ip 1581. Specification and qualification procedures for aviation jet fuel filter/separators, fifth edition, july 2002. Af activity code is sp

Special Test Features:

Qualification test report no 6-0564-02

Style Designator:

Cylindrical w/out container

Purchase Description Identification:

87405-cm420-5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
