End Application:

Nha: misc. Parts auxiliary system

Design Type:

Reusable

Tempurature Rating:

Between 32.0 degrees fahrenheit and 175.0 degrees fahrenheit

Product Name:

Filter, particulate

Special Features:

Port size 1/2 in. Port, npt; bowl material zinc; bowl capaci type 4.4 oz.; drain type twist drain; flow rate 85 scfm; pressure rating 0 - 250 psig; seal material nitrile; no indicator

Material:

Zinc body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
