Boat, area search, 40ft., 40as0401

Product Name:

Filter, pressure low

Special Features:

Part number breakdown: mf=single element filter; p=filter media, paper; 80=size; g=threaded connection; 10=micron filtration rating, paper; e=pressure gauge clogging indicator; 1.0=type and modification number; 5.2=port configuration, 3/4in. Npt; aluminum head, canister, steel; used with hydrocarbon based fluids; flow direction, inlet/outlet side; 15 gpm; maximun operating pressure 120psi Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A24000
