End Application:

Fuel fltr, lubricity-enhancing 90gph mdl fs20000

Product Name:

Filter element, flui

Special Features:

Enhances fuel lubricity for life of filter. Provides lubricity enhancing additive with patented slow release technology. Removes both free and emulsified water. Protects fuel system from abrasive wear particles.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T384-b
