Design Type:

Vertical

Inlet Connection Quantity:

1

Pressure Rating:

150.0 pounds per square inch

Tank Material:

Plastic

Product Name:

Coalescing filter

Special Features:

Automatic drain; flow capaci type 40 scfm; port size npt/bspp-g 1/4; standard filtration 0.05 micron; useful retention 1.72 oz; weight 1.1 lb; materials of construction body zinc, body cap abs, plastic bowl polycarbonate, filter element borosilicate cloth, seals nitrile

Functional Description:

Removal of water, oil aerosols and solid particulate contaminants down to 0.01 ppm / wt with pressure drop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T384-b
