End Application:

Nha: filter; wsd: nuclear power plants

Product Name:

Element

Special Features:

Material: cres; spec: aisi type 304; filtration: 5 microns ; effective filter area: 75 sq.In.; element collapse pressure: 4500 psid, min.; 100 percent verification of filtration rating by bubble point test, min. Bubble point shall be 9.0in. Water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
