Design Type:

Nonreusable

Product Name:

Filter assembly, fluid

Special Features:

Material-nodular iron and extruded steel. Temperature rating-minus 40 to +212deg f. Pressure rating-6000psi . Flow rating-120gpm . End connections-sae 3000psi 1.50in flanges. Visual indicator-yes. Element-20 micron/inorganic disposable. Flui

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
