Product Name:

Df series high pressure filters

Special Features:

Materials: head ductile iron; bowl steel; seals fluoro rubber (fkm). Micron rating: 10. Connection type: flange. Maximum operating pressure: 6000 psi. Proof pressure: 9000 psi. Fatigue pressure: 6000 psi. Burst pressure: 15080 psi.

Media For Which Designed:

Fuel/oil, hydrocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
