End Application:

Wsd: cvn nuclear reactor boundary area

Design Type:

Limited

Filtering Element Quantity:

1

Maximum Operating Pressure:

125.0 pounds per square inch

Product Name:

Filter, efg

Special Features:

Fuel oil strainer shall be of simplex metal edge type, .0030in. Spacing; bronze type efg-i; flow: max. Of 1-1/2 psi drop at 4.5 gpm; flanges: 1-1/2 125 lbs.; body length: 15.750, body height: 7.625; distance from bottom of body to center of inlet: 12.500

Material:

Steel comp 304 container/cartridge

Media For Which Designed:

Fuel/oil, hydrocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
