Product Name:

Filter assembly, high pressure

Special Features:

Type: filter assembly, high pressure; material: ductile iron head, cold formed steel bowl; temperature rating: -22 degrees f to 250 degrees f; pressure rating: 6000psi; end connections: 2.00in. Flanges; indicator: visual (popup) clogging indicator; element: 10 mi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
