End Application:

Nha: engine, diesel mn prpl 16pa6b-stc

Product Name:

Lubricator, jet assist compressed air panel

Special Features:

Fluid: compressed air; port: 1-1/2in.; max. Pressure: 50 degrees c; temperature: 0 degrees c to 50 degrees c; max. Flow rate: 20000 l/min; lubrication type: selective oil fog

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
