End Application:

Filter, high pressure

Product Name:

Filter hydraulic

Special Features:

Filter, high. Type is high pressure hydraulic filter, style is in-line, configuration is 50p110qeI90xx1, flow rate is 100 gallons per minute, pressure rating is maop: 5000 psi (344.8 bar), port/connection size is 1 3/8 inch manifold ports on the bottom of head, element material is microglass iii, filter rating is 10 micron absolute, housing material is ductile iron head and cover, seamless steel tube bowl, seal material is buna (nitrile), indicator is electrical indicator, left side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
