**End Application:**

Filter dehydrator

**Product Name:**

Catch-all, replaceable core type

**Special Features:**

Bow thruster. Connections, inches of odf solder is 5/8. Number of cores or filter elements is 1. Volume of desiccant in cubic inches is 48. length is 9.15 inches. mounting diameter is 6.00 inches. Pull space required to change core is 7.50 inches. Body diameter is 4.75 inches. "t" designation in part number indicates tap to be pressure tap.

**Material:**

Steel body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
