Body Length:

3.280 inches

Body Outside Diameter:

1.000 inches

Product Name:

Disposable in-line filter

Special Features:

Port configuration: 0.25 inch diameter hose tang; max. Pressure: 100 psig; max. Temperature: 125 degree fahrenheit; mounting: any orientation; weight: 15 grams; material: body-transparent nylon, element-epoxy saturated borosilicate glass micro fibers; drawing number: idn-10g-300; sold in box quantities of 10

Material:

Nylon body

Media For Which Designed:

Gas

Style Designator:

Inline disposable w/hose connections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
