Maximum Operating Pressure:

5000.0 pounds per square inch

Special Features:

5000 psi rated filter assembly; 7075-t6 aluminum body; 10 micron microglass filter element; buna-n seals; visual clogging indicator; internal bypass; rated flow 50 gpm; used for high and low pressure oil and gas applications

Material:

Aluminum alloy 7075 body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
