Temperature Rating:

Between -10.0 degrees fahrenheit and 80.0 degrees fahrenheit

Filtering Element Quantity:

2

Maximum Operating Pressure:

32.0 bar

Product Name:

Pressure filter, change over ball valve

Material:

Rubber seal

Material Specification:

En-gjs-400-18-lt mfr ref single material response body

Media For Which Designed:

Fuel/oil, hydrocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
