**General Description:**

Windustrial designed for fuel oil, 950 gph heating capacity from 40 to 140 degrees f, storage 143 gal., 100 psi working pressure, flue pipe 14 in., pipe connections 2 in., electrical 120 v, 60 cycle, single phase, ac, automatic with electronic safety controls, spare parts required, cap, downdraft 1, collar, storm 1, elbow, adjustable 90 degrees 2, pipe, flue 20 ft, electrodes 4, regulator, draft, barometric 1, rod set, anode 1, valve, relief 1, 7.3 gph firing rate, electromagnetic interference control, fungus resistance

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
