Body Material:

Copper alloy

Body Style:

Tee w/offset

First End Connection Type:

Unthreaded external tube

Second End Relationship With First End:

Identical

Seat Material:

Steel, corrosion resisting

Flow Control Device:

Disk

End Connection Quantity:

2

End Application:

Leslie co water heater type e4500/e600

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
