Overall Length:

32.4375 inches

Overall Width:

3.8750 inches

End Application:

Immersion heater k4s-6t2-0101-m7 - 4"-150 lb steel flange that goes on usns stalwart class tagos

Current Rating:

10.800 amperes

Wattage Rating:

9.000 kilowatts

Voltage In Volts And Current Type:

480.0 dc

Special Features:

Thermostat internally mounted 60-250 f; flush on atmospheric side of flange

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
