Body Style:

Flange type

Overall Length:

41.500 inches

Length:

30.250 inches

End Application:

Lube oil settling tank flanged immersion heater

Product Name:

Heating element, electrical, immersion type

Special Features:

Outlet temperature: 250 degrees f max.; media: lube oil; terminal enclosure: nema type 4; electrical rating: 12 kw, 480v, 3-phase, single stage; end seals: hermetic; heater gasket: 1/16in. Non-asbestos fiber; flange diameter: 11i n.; bolt circle: 9 1/2in.; bolt hole diameter: 7/8in.; bolt diameter: 3/4in.; number of bolts: 8; heater contains 12 tubular elements; heating elements are seal-welded on the dry sid (inside nema 4 terminal enclosure)

Material:

Steel sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
