Body Style:

Tubular, threaded terminals

Element Radiation Specification:

Noninfrared

Heat Control Type:

Any acceptable

End Application:

C28 series fryer

Maximum Wattage Rating In Watts:

4000.0 single voltage

Voltage In Volts And Current Type:

440.0 ac single voltage

Product Name:

C28 fryer element

Special Features:

Rod diameter .445; color code: brown; term. Stud 10-32 or 8-32; type 304 stainless steel sheath; 5-8-18 stainless steel or nickel plated brass or steel header, braze or weld to rod

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
