Diameter:

12.000 inches

Length:

192.000 inches

Connection Type:

Flanged pipe heating fluid outlet

Tube Attachment Method:

Welded both ends

Heat Transfer Method:

Indirect

Rated Capacity At Maximum Working Pressure:

21000.0 gallons per hour

Connection Diameter:

3.000 inches heating fluid outlet

Special Features:

For heating diesel fuel winter type df1, fed specification vv-f-800, heater and exchanger on separate skids arranged for transfer hoses directly interconnected to avoid stress, w/components and accessories, a vertical stack furnished in prefabricated sections of sheet steel, 20 ft height when assembled with support umbrella collar and cap, designed for aviation tank farm, collapsible tanks

Height:

48.000 inches

Material:

Steel

Style Designator:

Plain u-tube

Specification Or Standard:

5 size

Departure From Cited Designator:

As modified by special features

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A28500
