Overall Length:

56.500 inches

End Application:

Cooling system for main propulsion motor onboard 180 ft coast guard vessels

Tube Material:

Copper

Coil Construction/arrangement Type:

Finned surface

Special Features:

Magnesia; 6 rows deep; tube lg 4 ft nom; 10 ins h; 37.500 ins w

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A509w0
