End Application:

Distiller unit model 2-tcfe-6-sc aboard 270 ft coast guard vessels

Tubing Outside Diameter:

0.625 inches

Tube Attachment Method:

Expanded both ends

Maximum Steam Working Pressure:

150.0 pounds per square inch

Heat Transfer Method:

Indirect

Cubic Measure:

2.000 cubic feet

Special Features:

Include the following, flanges 2 ea., shell 2 ea., end 2 ea., divider 2 ea., gaskets 4 ea., fitting 1 ea., pipe 1 ea., tubing 1 ea.

Material:

Steel shell

Unpackaged Unit Weight:

150.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
