End Application:

Used in model 2-tcfe-6-sc 6000 gpd distilling plant onboard 270 wmec coast guard vessels

Tube Attachment Method:

Expanded both ends

Maximum Steam Working Pressure:

150.0 pounds per square inch

Heat Transfer Method:

Indirect

Special Features:

Includes the following, tubesheet 1 ea., tube support 1 ea., tube spacer 1 ea., divided flanged waterbox 1 ea., 4 150 lb. Pipe flanges

Material:

Copper alloy shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
